John P. Caulfield
Director

March 1, 1982

The Honorable Kenneth A. Gibson
Mayor, City of Newark
City Hall
Newark, New Jersey

Dear Sir:

I herewith respectfully submit the Annual Report for the year 1981, outlining the activities of the Fire Department:

The primary goals of the Fire Department continue to be

1. The prevention of unfriendly fires, and,
2. The minimizing of life and property loss when unfriendly fires occur.

The ultimate method of reducing life and property loss due to fire is through fire prevention, public fire safety education and fire code enforcement. Activities in these areas will continue more vigorously than ever and will continue to be expanded, particularly in the smoke detector and public education areas. Of the 26 fire deaths recorded, all occurred where there were no smoke detectors installed, where smoke detectors were not functioning, or where other adverse conditions existed.

Although Department response and fire suppression activities continue as efficiently as ever, there is little that can be done between fire occurrence and fire department notification, hence the emphasis on the above-mentioned activities of prevention, education and code enforcement.

Total fires in the city increased 2.3% from that of 1980, while serious fires requiring a full alarm assignment or greater, decreased 12.4%. Fires in vacant buildings decreased 5.7%. Malicious false alarms increased 16.3% to the highest level in the Department's history. A task force has been formed and is currently researching methods to solve this most distressing problem.

RECOMMENDATIONS

- * The continuation of the fire apparatus replacement program.
- * The continuation of the fire station rehabilitation program.
- * The acquisition of a Fire Protection Engineer to assist in evaluating fire protection technology that is constantly being developed.
- * Continuation of the water main cleaning and relining program.
- * That members of the judiciary impose maximum penalties for violations of the fire prevention code, especially where there are violations of the smoke detector code ordinance, the transmission of false alarms, and the illegal opening and vandalism of fire hydrants.
- * The continuation of the vacant building demolition program.
- * An expansion of public fire safety education programs involving all city agencies.

I heartily commend Fire Chief Stanley J. Kossup, and all the officers and men under his command, and also the members of the Administrative Staff, for their dedicated and efficient service rendered throughout the year.

March 1, 1982

A debt of gratitude is owed to the Chaplains and the Department Surgeons for their outstanding efforts in attending to the needs of the men of the Department. I also extend thanks to the Fire Department's Citizens' Advisory Committee for their efforts and advice, and thanks also to the members of the Bell & Siren Club for their help and comfort during times of emergency.

On behalf of the members of the Fire Department, I extend to you, Mr. Mayor, to the members of the Municipal Council, to the Business Administrator and to all city department directors, our sincere appreciation for your interest and cooperation in helping us solve some of our problems.

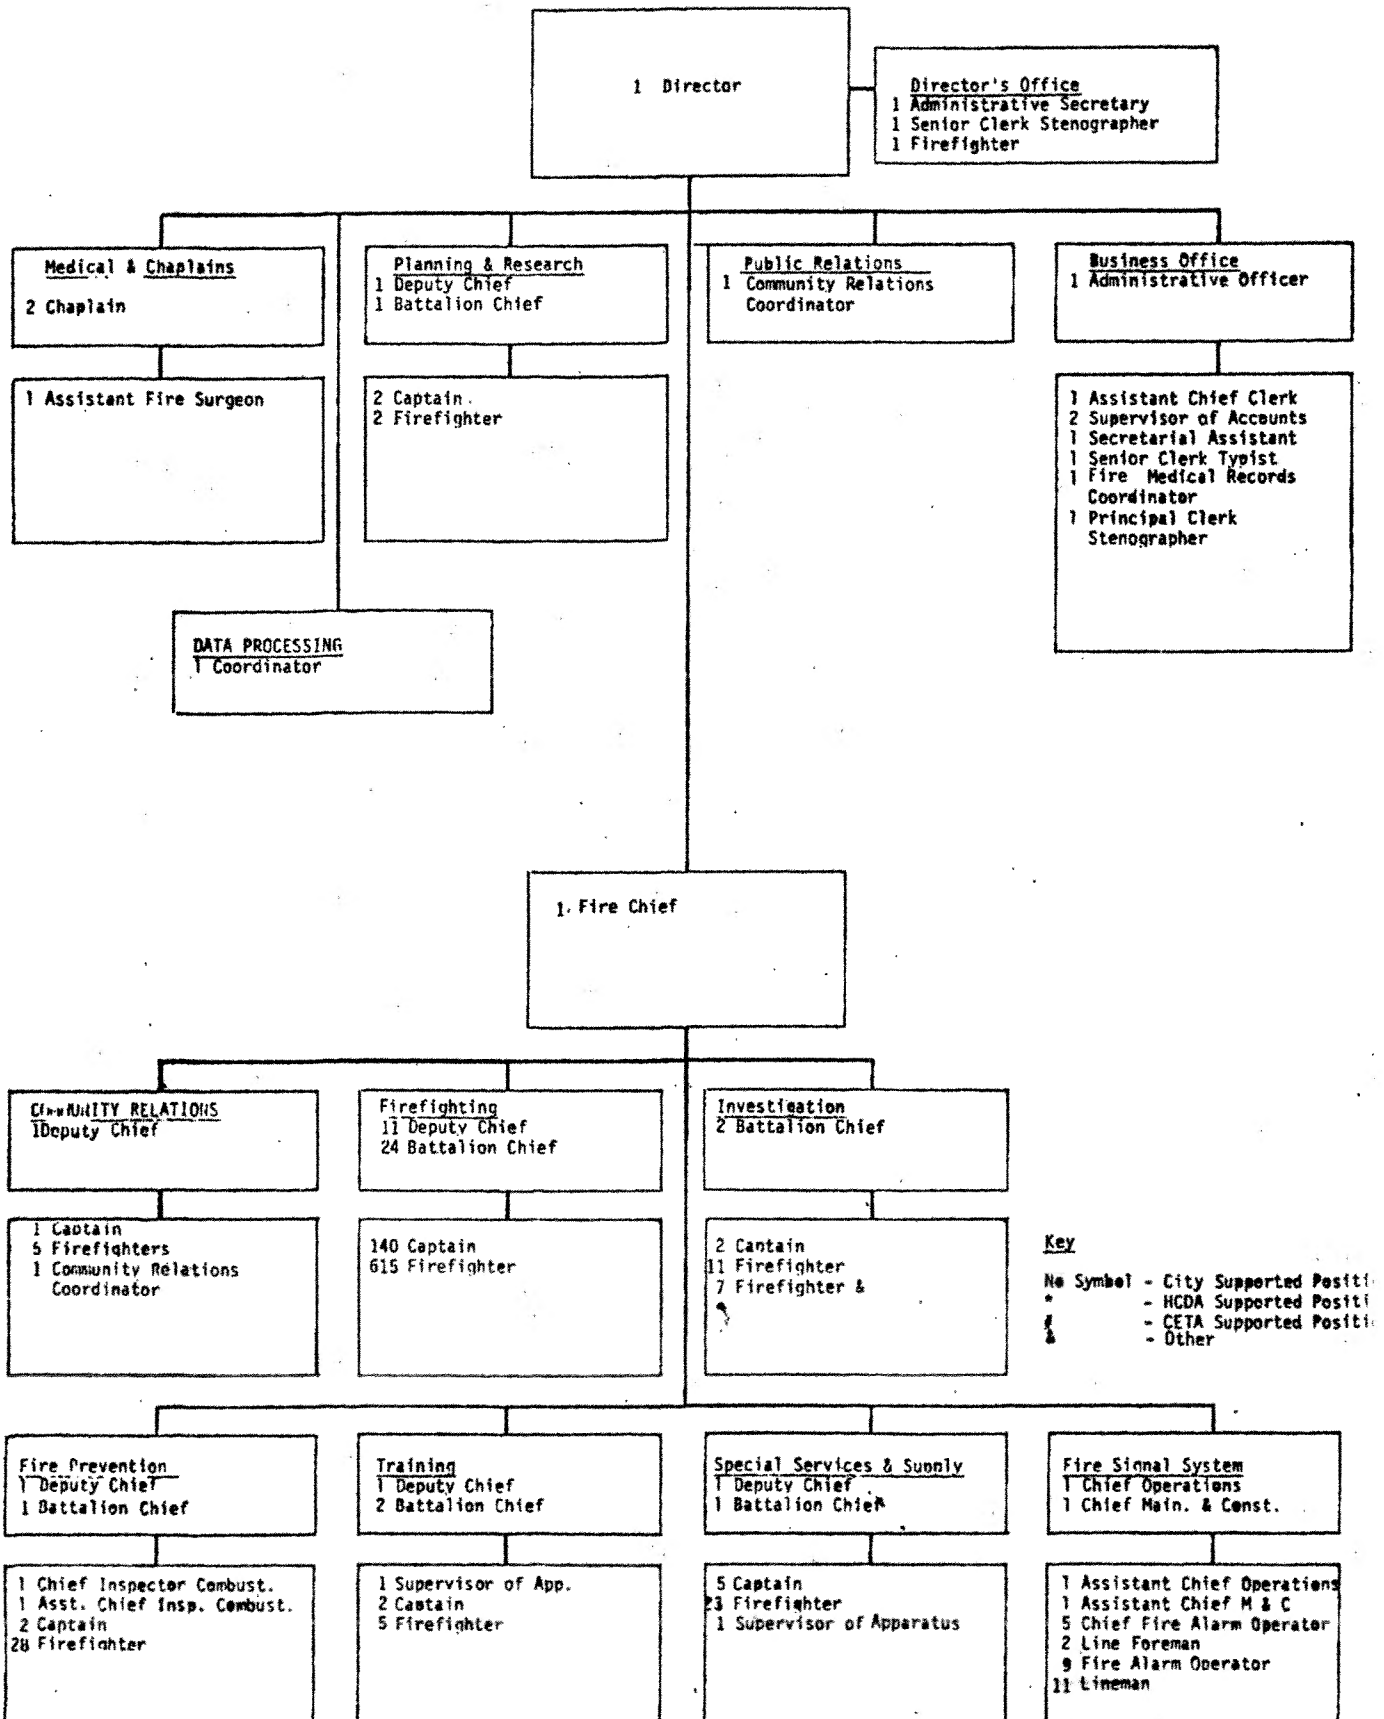

Respectfully submitted,

John P. Caufield

Hon. John P. Caufield, Director
Newark Fire Department
1010 - 18th Avenue
Newark, New Jersey

Dear Sir:

Forwarded herewith is the Annual Report of the Newark Fire Department for the year 1981. The reports of all divisions show an increased workload over the year 1980. The Department under the increased burden, has met all demands placed upon it, which is a true indication of the continued dedication and concern our Officers and Firefighters show for this City, its residents, and their Fire Department.

Our Fire Prevention Division has made improvements in the inspection process in the past year, but we must increase our effort to the maximum in this our basic fundamental duty if we are to turn the corner and win this fight against our enemy "fire".

It is expected that in 1982 both administrative and operational personnel will increase the quality and quantity of building inspections. Planning for a City-wide smoke detector campaign is in progress and will be initiated this year to remind our citizens that installation of this device is perhaps the most significant step that can be taken to protect them against the ravages of fire.

Five (5) Maxim pumpers scheduled for delivery beginning in February 1981 were not delivered because of financial difficulties within Maxim Industries and the contract was subsequently severed. Contracts were rebid, awarded, and five (5) Continental (1,250 G.P.M.) pumpers were delivered between the months of July and September and placed in service in the following locations:

Engine Co. No. 6 - 344 Springfield Avenue
Engine Co. No. 7 - West Market and Hudson Streets
Engine Co. No. 10 - 33-35 Astor Street
Engine Co. No. 11 - 521-23 Central Avenue
Engine Co. No. 17 - 84-86 Clinton Place

Three Seagrave Rear-mount Aerial Ladders were delivered during November and December, and are currently in service in the locations following:

Truck Co. No. 1 - 188 Mulberry Street
Truck Co. No. 10 - 1028-30 Bergen Street
Truck Co. No. 12 - 420-38 Sandford Avenue

John P. Caufield
Director

Hon. John P. Caufield, Director

January 25, 1982
Page 2

The delivery of this equipment, which represents approximately a 25% replacement of first line apparatus, keeps us on target as regards our twelve-year apparatus replacement program and has provided us with a currently acceptable number of spare units.

As regards our physical plant, major reconstruction of interiors started in 1981 and work is in progress at the following locations:

- a) Engine Co. No. 9 - 197-199 Summer Avenue
Work near completion
- b) Engine Co. No. 17 - 84-86 Clinton Place
Contract awarded - work in progress

A program to paint all of our firehouses implemented in 1979 is ongoing and at this time, most of our firehouses have been repainted. Many of our firehouses, however, are in poor condition and major reconstruction is needed with four locations scheduled for interior work in the 1980 capital budget request:

- a) Engine Co. No. 14 - 69-71 Vesey Street
- b) Engine Co. No. 15 & Truck Co. No. 7 - 269-271 Park Avenue
- c) Engine Co. No. 29 & Truck Co. No. 10 - 1028-1030 Bergen Street
- d) Engine Co. No. 4 and Truck Co. No. 2 - 241-243 High Street

I, of course, am in favor of aggressive firehouse repair and refurbishing but our buildings are old, there have been population shifts and neighborhood changes; urban renewal has left its mark. I therefore strongly recommend the building of new fire stations with multiple unit response capacity and capability consistent with present and future fire coverage requirements.

I wish to extend to all members of the Department my sincere appreciation for their efforts, often under extremely hazardous conditions, and for their cooperation throughout the year.

FIRE PREVENTION DIVISION

Annual Report for 1981
submitted by
Deputy Chief James Morgan

The year 1981 was one which presented new challenges to the Fire Prevention Division. The on going Fire Prevention effort was continued and some new Ordinances and State Regulations were passed so that we might deal more effectively with these problems. Again, the maximum effort was strived for to maintain a high level of Fire Prevention accomplishments.

The Fire Protection Inspector requirements mandated by State Law have been complied with, and all Inspectors assigned to the Fire Prevention Division have met the educational requirements for licensing to the H.H.S. level. Several Inspectors have also received their Fire Protection Sub-Code Official Licenses.

SMOKE DETECTORS

The strict enforcement of the City Smoke Detector Ordinance has been continued and every single violation that has been reported to the Division has been investigated, and abatement achieved or action pending.

A regulation calling for Smoke Detectors to be installed in all common areas of Apartments, and multiple dwellings was promulgated by the State of New Jersey. The Fire Prevention Division has been mandated by the State of assist in the enforcement of this regulation.

PUBLIC EDUCATION

Every method possible has been used to deliver the Fire Prevention message to the citizens of Newark.

The biggest thrust has been aimed at the school population. The Board of Education has both requested our assistance, and has complied with our Inspectors advice in the achievement of this goal. All schools were inspected and visited throughout the year.

All requests for speakers were answered and approximately 100,000 pieces of Fire Prevention Literature were given out to Businesses, School Children, Interested Groups, and Members of the General Public.

Fire Prevention Division (2)

VACANT BUILDINGS

Vacant buildings continued to be a high priority item on our schedule. New methods were employed in attempting to reduce the number of these fire prone structures and some success was met with. The worst and most hazardous buildings were razed and many others were secured or rehabilitated.

The Division continually monitored and kept track of all vacant buildings and will continue to do so.

FIRE RECORDS

The Fire inspection record/violation form that was introduced in 1980 has proven to be a success and was continued in 1981. All violations and inspection records are now kept track of with greater accuracy and the information contained in them has proven most useful in many cases.

OTHER AGENCIES

The good rapport that was established with the other departments in the City and various State Agencies has been continued, and many fire problems have been lessened or abated due to this continued cooperation.

This is necessary to operate efficiently in this day and age.

PLAN REVIEW

Blue Prints of all new construction and alterations that took place in the City were reviewed by the Division.

This will result in more Fire Safe structures and operations in the City in future years.

BUREAU OF INVESTIGATION

(Arson Squad)

Annual Report for the Year 1981

submitted by

Deputy Chief James V. Raymond

The following is a report of the activities of the Arson Squad of the Newark Fire Department for the year 1981.

The complete records of all investigations conducted by the Arson Squad, including photographs, evidence, statements, etc., are on file in the Arson Squad office and will be made available to interested parties where needed for deposition, Grand Jury presentation, criminal prosecution, civil suit or for any purpose demanded by law.

Records of juvenile apprehensions, adult arrests, together with court disposition of these arrests, are on file in the Arson Squad office, and will be made available to the proper authorities on request.

The Arson Squad has maintained a daily association with other bureaus of municipal government, such as the Newark Police Department Youth Aid Bureau, Board of Education, Fire Prevention Bureau and the Department of Health and Welfare.

Throughout the past year, we have continued our liaison with the New Jersey State Police, Essex County Prosecutor's Office, Federal Bureau of Investigation, Alcohol Tobacco and Fire Arms, New Jersey Motor Vehicle Department, New Jersey Youth and Family Services. These agencies have given us important assistance in many of our investigations and we express our gratitude for this help.

The following is a list of other activities of the Arson Squad for 1981.

1. The Newark Arson Squad supplied two officers to instruct in the training of Fire/Arson at the Essex County Training Academy, Cedar Grove, New Jersey.
2. The Arson Squad supplied three members to conduct an investigation in cooperation with the Essex County Arson Task Force and the Montclair Police Department at a fatal fire.
3. The Newark Arson Squad supplied one officer in cooperation with the Essex County Arson Task Force in the investigation of the Paper Mill Playhouse fire in Millburn, N.J., as an expert witness and subsequently a conviction.
4. The Arson Squad sent three members to the Sea Girt Training Facility and one member to Burlington County Training Academy where they completed a 90--hour course given by the National Fire Academy on Fire/Arson Investigation.
5. One officer of the Arson Squad attended a course in Sea Girt given by the New Jersey State Police Arson Analyst.
6. The Arson Squad formed a division headed by a Battalion Chief to investigate all illegal disposal of chemical waste.
7. All members of the Arson Squad attended a course in fire arms and special police procedures, as well as completing a course on the Police Firing Range for the purpose of qualifying in the use of their weapons.

Bureau of Investigation (2)

8. All tours in the Arson Squad were supplied with on-the-scene tools for their field investigations.

9. The Arson Squad designated a Battalion Chief to handle Major Crimes Investigation.

10. The Arson Squad has trained 36 Interns (on the job training) from other municipalities with a 40-hour course.

11. The Arson Squad supplied one officer to lecture at the New Jersey State Advisory Committee on arson in Franklin Township, N. J.

12. The Arson Squad supplied one officer to lecture on Court Procedures and the use of photography in detecting arson, in Hightstown, New Jersey

11. The Newark Arson Squad supervision was upgraded by designating a Deputy Chief to command the Bureau of Investigation.

14. The Essex County Prosecutor's office has requested and received assistance from this division on several occasions. On those occasions, members of the Squad have appeared as expert witnesses for the Prosecutor against arsonists and members of organized crime.

14. At the request of Congressman Peter Rodino, two Battalion Chiefs from this unit testified before a Congressional Subcommittee on crime in Washington, D. C., on the proposed budget reductions in Federal Arson Programs.

I wish to take this opportunity to thank Director Caufield, Chief Kossup, and all the officers and members of the Newark Fire Department for the cooperation and assistance they have given to the Arson Squad in 1981.

oOo

Bureau of Investigation (3)

FIRE SIGNAL SYSTEM OPERATIONS

1981 ANNUAL REPORT

Albert S. Lasso, Chief

In compliance with the Rules and Regulations of the Newark Fire Department,
I hereby submit this annual report.

1. Alarms Transmitted	28,008
2. False Alarms Received	10,271
3. Box Tests Supervised	4,500
4. Tests From Private Fire Alarm Companies Supervised	3,000
5. Tests Conducted of Airport Fire Alarm Facilities	365
6. Telephone Calls Handled Over Centrex System (approx.)	600,000
7. Radio Calls Handled (approx.)	350,000
8. Number of Circuits Tested	80,000
9. Miscellaneous Reports Prepared and Distributed	9,300
10. Individuals and Agencies Dispatched to Multiple Alarms	3,800
11. Prepare and Distribute Daily Alarm Summary Reports	365
12. Prepare Orders for Purchase of Equipment and Materials .. necessary for this Division	
13. Verify Invoices and Bills Related to all Fire Department Telephones	
14. Supervise Installation of New Equipment within the Central Office	
15. Maintain a Chronological Log of Daily Operations throughout the year	
16. Other Job Operations (Booking, Janitorial Duties, etc.)	

1.Box Alarms Transmitted	Jan.	Feb.	Mar.	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
A) Full Assignment Alarms	353	321	311	298	375	379	320	369	280	300	296	282	3884

FIRE SIGNAL SYSTEM OPERATION
CONSTRUCTION & MAINTENANCE

Annual Report
For the Year 1981
submitted by
John Di Blasio, Acting Chief

The following is an account of this division's work performed during the twelve-month period of 1981, ending on December 31:

Subterranean ducts rodded, feet of	5,165
Pull wire installed in ducts, feet of	5,165
Subterranean cable installed, feet of conductor	185,275
Single conductor line installed, feet of	11,780
Aerial cable installed, feet of conductor	1,500
Twin ruraline wire installed, feet of conductor, "C"	12,875
Galvanized messenger installed, feet of	175
Subterranean cable removed, feet of conductor	80,175
Line wire removed, feet of	16,050
Fire alarm boxes installed, modified	103
Fire alarm boxes relocated	61
Fire alarm boxes to shop for service/modification	118
Fire alarm boxes inspected, tested and wound	4,648
Fire alarm boxes inspected and wound	1,619
Stanchions reset	22
Junction boxes replaced	14
Stanchions/junction boxes rehabilitated	93
Pole line construction released only	24
Pole line hardware replaced only	381
Pole transfers completed	125
Line wire protective coverings installed	6
Trees trimmed	214
Ground rods buried	7
Fire house batteries serviced, sets of	336
Field facility inspections, hours of	388
Training sessions, hours of	48
Housekeeping/vehicle maintenance, hours of	48
Major job operations completed	4,437
Minor job operations completed, and corrective functions	8,611
Pre-construction conferences and surveys for private fire alarm systems conducted	5
Central station maintenance, hours of	134

SPECIAL SERVICE AND SUPPLY COMPANY

Annual Report submitted by
Joseph L. Magnusson, Deputy Chief
for the year 1981

The Special Service Division operated on an around-the-clock basis through-out the year, and continued to provide the necessary services of supply and repair to all Fire Department units, and to provide for various services to other city departments and agencies and the community in general. These services are performed by our personnel, some of whom are assigned to tours, and some on a daytime basis only. Planned programs and policies were adhered to, and new programs and procedures have been formulated for the forthcoming year, in an attempt to achieve goals in a most expeditious manner. Accomplishments and services of various sections in this Division during the past year are as follows:

DELIVERY AND PICK-UP SERVICE: Deliveries and pick-ups were made on a morning, afternoon, and evening basis as per schedule, for routine items. Items of an emergency nature were handled immediately on a twenty-four hour a day basis. Items handled were things as housekeeping supplies, tools, equipment, extinguishers, oxygen and air cylinders, masks, furniture, lockers, rock salt, ladders, hose and other supplies and equipment that require storage and transportation.

Special Service personnel responded to multiple alarm fires and special calls with fuel for apparatus, air tanks, salvage covers, and when requested the Hi-Ex Foam Generator, smoke ejector and foam concentrates.

Special Service is also charged with the pick-up at fire scenes of salvage covers, and the maintenance of same, also the redistribution of these covers to fire companies throughout the Fire Department.

Special Service have responded on request to cordon off buildings deemed to be in dangerous condition, and posting these buildings indicating that a dangerous condition exists at the site.

Fire apparatus requiring repairs or adjustments were picked up and delivered to various locations. Replacements for these apparatus were delivered to the affected fire companies by Special Service personnel.

MESSENGER SERVICE: This service provided by Special Service personnel. The messenger carried out his prescribed duties daily, calling on headquarters as well as all Chiefs' quarters. He also performed other related duties.

Special Service and Supply (2)

MASK REPAIR DIVISION: The mask department was charged with the repair and maintenance of all type masks used by the Fire Department. During the past year, this department bench-checked (rebuilt to new condition), over 170 MSA Air Masks. Chemox and Scott masks were also maintained by these personnel. Air tanks were also repaired and maintained. Over 9,500 such tanks were filled during the past year. A new "rubber bumper", designed by Special Service personnel, was also installed over tank gauges, and were successful in cutting down damage to such gauges to a fraction of the damage prior to this innovation. During the forthcoming year, all MSA Air Masks will have undergone a complete rebuilding, and will be part of a steady ongoing program.

AIR PURIFICATION UNIT: An M&J Associates Air Purification system was installed during the past year, in conjunction with an Ingersoll Rand compressor, model H 15 T4x 20, 5,000 psi capacity. Our original Robbins Air System, with Ingersoll Rand compressor is now a back-up system. Used in tandem, this package is probably one of the best installations in the country. Over 9,500 air tanks were filled during the past year, with over 160 hours pumping time recorded during the past year. Provision to comply with Federal and State Health laws were made, air samples were lab tested monthly, throughout the year.

CANVAS SHOP: Canvas items such as mask box covers, chain saw sheaths, electrical generator covers, control pedestal covers for hook and ladder trucks, turret nozzle covers, hose bed covers, foam can covers, stretchers, tool kit bags, smoke ejector covers, mask facepiece holders, rope bags, etc., were made in this department, as well as maintenance of these items. Window shades for various firehouses were also repaired or fabricated in this department.

STOCK ROOM: All tools, equipment, devices and supplies, (except those ordered through Fire Headquarters and the Hose Shop), were ordered, received, checked, recorded, stored and distributed as needed to the fire units through the delivery service.

Auto and truck equipment were handled by this unit during the past calendar year.

Supply room personnel repaired porto-lites, and hand lights of other types, desk lamps, extension cords, K-12 Saws, generators, etc. They also made special belts and straps, tested salvage covers, and made the necessary arrangements with the carpenter shop to repair axe and hook handles. This unit also made the necessary arrangements for the construction and maintenance of such items as mask boxes, skid load panels, hose bed decking, apparatus windshields, and canopies, and whatever other needs of the Fire Department requiring the services of the carpenter shop. This department is also charged with the repair of such articles as portable pumps, explosimeters, and the maintenance of a supply of saw blades. The unit also coordinates the necessary building and maintenance of fire department buildings.

Special Service and Supply (3)

APPARATUS MAINTENANCE: All fire apparatus in service, and all spare apparatus were tested by this department in accordance with accepted procedures. Apparatus were maintained and repaired by this division in conjunction with the Bureau of Motors. Arrangements for work with outside mechanics were made when necessary. The scheduling and maintenance of records of the Preventive Maintenance Program were kept by this unit.

Specifications for the purchase of new apparatus were also drawn up by this department in conjunction with the Chief of the Department. This activity and the acceptance of new vehicles often required meetings with the agents and representatives of manufacturers concerning acceptance tests, malfunctions, deviations from specifications, etc.

This unit approved several drivers and tillermen, visited a number of fire houses to conduct on-site drills, and to explain the operation and maintenance of fire apparatus.

HOSE SHOP: The Hose Shop kept all fire companies properly supplied with hose and fittings. All hose in service was tested, and defective and over-aged hose was repaired when possible, as were damaged nozzles, valves, adapters, hose fittings, brackets, and other miscellaneous equipment.

Using Oxy-Acetylene welding equipment, many apparatus and equipment parts were repaired, and with this equipment added to the general maintenance capability of the shop.

GENERAL: Various size metal ladders were received, stored and placed in service when necessary. All metal ladders on all apparatus are now maintained and repaired by Special Service personnel.

The program for inventory and test control of gas pressure cylinders in use in the department continued throughout the year. These cylinders include air tanks, oxygen tanks, CO₂ tanks, dry powder and dry chemical extinguisher tanks, air pressure and water extinguishers and kero-test cylinders. All cylinders are tested every five years, on a continuing basis from the date of manufacture.

Special Service is also charged with the scheduling of all building repairs, to the Fire Department buildings. This unit also endeavors to work closely on this subject with personnel from the Bureau of Construction. Maintenance of a file system, recording building complaints and disposition of same is also kept by this unit.

Special Service and Supply (4)

Community assistance activities included the following during the past year:

Pumping out cellars and basements and community owned swimming pools.

Provided and operated portable electric generators, lamps, cables, at emergency situations, and routinely on request.

Provided extinguishers for protection at various functions, and for demonstration purposes.

Each sub-division of Special Service maintained records and file systems; submitted various required reports consistent with duties, and activities; engaged in necessary clerical work consistent with objectives, correspondence and telephone communications essential to operations; and performed the housekeeping duties necessary to maintain quarters in a clean and presentable condition.

SPECIAL SERVICE & SUPPLY

APPARATUS REPORT
SUBMITTED BY
DANIEL J. TAURIELLO
SUPV. OF APPARATUS

In compliance with rules and regulations, the following report is submitted outlining the activities of the Apparatus Division for the year 1981:

There are 91 units in the Fire Department:

Assigned to companies there are 22 engines and 7 spares, 10 aerial trucks and 4 spares, 1 at Rescue Squad, 1 fire boat. The remaining units are assigned to chiefs, the Training Center, Special Service, Arson Squad, Fire Prevention Division, Bureau of Combustibles, and Community Relations.

During the year 1981, five new pumpers were put into service and three aerial trucks were assigned to the following companies:

Engine Companies 6, 7, 10, 11, and 17 (pumpers)

Truck Companies 1, 10 and 12 (aerial trucks)

Oil and filter changes were made periodically, lubrication and preventive maintenance work was made when necessary.

Four engines were taken out of service; also, one aerial truck and five staff cars.

In an attempt to keep up with our apparatus replacement program, two engines and one aerial truck will be ordered for 1982.

A recommendation has been made to replace all staff cars that are five years old or older.

With the aid of Special Service and Training Center personnel, change-over of apparatus was made when necessary.

	<u>255 - Assorted lengths</u>	<u>12,400 ft.</u>

Hose Repaired

4 $\frac{1}{2}$ " - Soft Suction	20 - 15 ft. lengths	300 ft.
3" - 100% Poly Hose	36 - 50 ft. lengths	1,800 ft.
2 $\frac{1}{2}$ " - 100% Poly Hose	42 - 50 ft. lengths	2,100 ft.
1 $\frac{3}{4}$ " - 100% Poly Hose	54 - 50 ft. lengths	2,700 ft.
1 $\frac{1}{2}$ " - Poly Hose	22 - 50 ft. lengths	1,100 ft.
Booster Hose	21 - 50 ft. lengths	1,050 ft.
	<u>195 - Assorted lengths</u>	<u>9,050 ft.</u>

Hose Tested

3" Hose Tested	342 lengths	17,100 ft.
3" and 2 $\frac{1}{2}$ " Tested Various lengths		4,000 ft.
2 $\frac{1}{2}$ " Hose Tested	333 lengths	16,650 ft.
1 $\frac{3}{4}$ " Hose Tested	206 lengths	10,300 ft.
1 $\frac{1}{2}$ " Hose Tested	208 lengths	10,400 ft.
3/4" and 1" Booster Hose Tested	<u>120 lengths</u>	<u>6,000 ft.</u>
Tested (Total)	1,209 lengths	64,450 ft.

Total number of valves, adapters, nozzles, equipment and miscellaneous articles repaired or installed during the year 1981 - 470.

Special Service and Supply (5)

Performance Report - 1981

Number of alarms answered	594
Number of pick-ups and deliveries made	19,478
Gasoline distributed at fires	935 gals.
Motor oil distributed at fires	37 gals.
Diesel oil distributed at fires	350 gals.
Electric generator used	33
Floodlight cable used	26
Number of lights used	37
Window shades	115
Cellars pumped out	166
Hours spent pumping out cellars	486
Porto-lites repaired	923
Porto-lites batteries distributed to companies	1,050
Liquid foam distributed to companies	1,040 gals.
Oxygen cylinders refilled	384
Scott, MSA, Survivair air cylinders refilled	14,393
15 lb. C.O. ² extinguishers refilled	636
Masks repaired	2,457
Canvas covers for bags, boxes, deck, etc., and repair	210
Air tanks repaired	545
Dri-powder extinguisher refilled	111
Smoke ejector on special call	7
Hi-Ex Expansion foam unit on special call	6
Ladders repaired	249 ft.
Movement of apparatus	224
Salvage covers picked up	209
K-12 saws repaired	318
Metal hooks repaired & assembled	283
Generator repairs	112
Salvage covers delivered	152

TRAINING DIVISION

Annual Report for 1981
submitted by
Alfred Freda, Deputy Chief

The Division of Training is responsible for all phases of Fire Department training. This responsibility includes training of recruit firefighters, in-service fire service personnel and industrial fire brigades. The realization of these responsibilities is accomplished through course material presented at the Battalion and Company level. The training goals and objectives established by this command are compatible with the behavioral objectives established by the National Fire Protection Association Standard 1001 and programs of instruction postulated by the International Fire Service Training Association.

The following major training programs were completed under the direct supervision of Training Division Personnel:

MAJOR TRAINING PROGRAMS

Crash Injury Management (on-going)
Probationary Firefighter Training .. 5/11 - 6/12
Closed Containers and Fires 1/5 - 1/14
Polymers and Fires 1/15 - 3/4
Vehicle Fires 1/23 - 4/21
New Supervisors & Chief Officers ... 2/4 - 4/13
Coordinated Fire Attack 3/19 - 4/22
P.A.T.M. R/R Safety 6/23 - 7/6
Driver Training Port Authority 5/18 - 6/24
Aerial and Ground Ladders 11/16 - 12/27
Probationary Firefighting Training
for Millburn, Kearny, East Orange,
Lyons and Veterans Administration. 1/21 - 7/5
Defensive Driving (U.M.D.N.J.) 10/7 - 10/28

SPECIALIZED TRAINING

People's Express Airline	Western Electric Company
Englehard Security Force	AROL Chemical Company

TRAINING DIVISION (2)

SPECIALIZED TRAINING (cont'd)

C.P.R.

223 Broadway
32 Green Street
243 Woodside Avenue
City Hall
Military Park
North Ward Center
Port Authority

Demonstrations of:

Rappelling and Elevated Rescue (State Police)
Fire Out
Jaws of Life
Vehicle Extrication
Water Gel Blanket

A very important aspect of this Division's responsibility is the training of industrial fire brigades and security forces of other government agencies. Training in first aide firefighting and related subjects was offered to the following agencies:

Coastal Oil
Bell Laboratories
Public Service Electric & Gas Co.
Federal Bureau of Investigations
Dupont Company
State Police
Water Department, Newark
Kremetz

Essex County Jail
Gateway I and II
Western Electric Company
Newark Sanitation Department
St. James Hospital
Greater Newark, Industrial Council
Newark Museum
U.M.D.N.J.

The Training Division Staff initiated a new and inovatative training program under the Chief of the Fire Department's direction. The Singer Caramate rear screen slide projector will be distributed to all fire companies. Using the expertise available from the Training Division, the line personnel will be directly involved in making Fire Prevention and public interest and/or information slide presentations, that they will show to the general public and/or specified groups on pre-determined appointment schedules. The Fire Department will receive national recognition for this unique training program, when the Singer Company publishes this idea in their national publication.

The fire companies' testing and awards program that was established has instilled pride and competitiveness among the line companies. It has also helped those interested in seeking promotions.

TRAINING DIVISION (3)

The Video Team, used up to this time, mostly for training purposes, will offer their services and expertise to the Arson Squad, Fire Prevention Bureau, and Special Services. A report will be issued under separate cover.

The Commanding Officer of the Division continued to serve as the chairman of the Fire Accident Prevention Board and as a member of the city-wide Accident Review Board under Mr. Thomas Banker. In line with these responsibilities, Safety Tip Bulletins were issued periodically to all units within the department regarding safe driving practices. A summary of the activities of the Accident Prevention Board have been submitted under separate cover.

The Safety-Water Officer has worked closely with the Water Department in getting out-of-service hydrants identified and placed back in service. He also conducted monthly safety meetings and investigated on-the-job accidents.

The Commanding Officer and Staff of the Training Division, wish to extend their thanks and gratitude to Director John P. Caufield and Fire Chief Stanley J. Kossup for their progressive leadership and wholehearted support. Without this enthusiastic leadership, it would have been impossible to achieve our objectives.

oOo

ACCIDENT PREVENTION COMMITTEE

Annual Report for 1981
submitted by
Battalion Chief Fred Boehringer

In the year 1981, the Fire Department experienced 53 accidents and 8 incidents. This is an increase of 27 accidents and 1 incident, compared to 1980.

All accidents and incidents were reviewed by the decentralized review board. Drivers involved in preventable, or preventable with an explanation accidents, received additional training by Battalion Chief Daniel Tauriello. Five of these accidents were referred to the City-wide review board. The city review board will not hear any cases where there is a claim against the city; this action, more or less, reduced our hearings before this board.

The most common type of accident was backing into objects or other vehicles. The Newark Fire Department Training Academy instructed all department members in defensive driving, and tested all members in visual acuity and reaction time. Any member of the department failing to meet minimum standards was immediately suspended from driving until the condition was corrected.

oOo

APPARATUS DIVISION (TRAINING)

Annual Report for the year 1981
submitted by
Daniel J. Tauriello
Supervisor of Apparatus (Training)

The following duties were performed by the Supervisor of Apparatus in the Training Division during the year 1981:

1. Coordinated work between the repair shop and the Fire Department.
2. Service tested all pumpers.
3. Inspected all aerial ladders and ground ladders on apparatus.
4. Certified all department drivers.
5. Instructed and certified pump and aerial operators on apparatus.
6. Arranged for the change-over of apparatus.
7. Kept records of all repair work on fire department vehicles.
8. Evaluated the repair work done by outside shops on fire department equipment.
9. Visited fire companies and lectured on fire ground hydraulics, safe driver practices and care of fire apparatus and fire equipment.
10. Performed various duties assigned to me by the Fire Chief, the Fire Director, and the Chief of the Training Division.

oOo

TRAINING DIVISION

Annual Report for 1981 submitted by
Battalion Chief Fred Boehringer
Safety Officer

Listed below are activities performed by the Safety Officer during the year 1981:

1. Assisted in training of Fire Companies at the Training Center.
2. Attended safety meetings with safety members and the Fire Chief.
3. Lectured private industry on high rise fires.
4. Attended weekly meetings with Chief Pierce to evaluate training programs and safety measures.
5. Attended accident revue board meetings, both department-wide and city-wide.
6. Ordered and distributed first aid supplies to field companies.
7. Arranged first aid and extinguisher demonstrations to various civic organizations.
8. Served as Executive Officer of the Training Academy.
9. Performed any other duties requested by Fire Chief Kossup, and Deputy Chief Pierce, commandant of the Training Division.
10. Investigated field accidents and safety problems.

oOo

TRAINING DIVISION

Annual Report for 1981 submitted by
Battalion Chief Fred Boehringer
Water Officer

The past year is behind us and hopefully some of our water and hydrant problems will be solved or at least reduced. Our water supply in our reservoirs was depleted to 24% of capacity in February and restored to 89% in May. The public acted well in this emergency, especially in refraining from hydrant vandalism during the summer months.

We were able to locate 147 wells in the city which could be used, if needed, for a drafting source.

In general, hydrant repairs were made promptly, especially in view of the fact that the Water Department work crews have been reduced in number.

There are approximately 125 hydrants out of service at this time, as compared to over 200 last year at this time.

The purchase of hydrant wrenches and hydro-compressor caps has been budgeted for; they are in the process of being made up for us. This officer hopes to go to the manufacturing plant in New York to inspect their process. We have taken off all hydro shield caps that were put on as an experimental basis.

During the year 1981, I either performed or assisted in the following activities:

1. Processed approximately 10,500 hydrant repair cards.
2. Responded to multiple alarms of fire between the hours of 0800-1600.
3. Attended 60 meetings with Mr. F. Volante, Superintendent of the Water Department, the Fire Chief and the Fire Director to discuss hydrant problems.
4. Investigated and followed up complaints dealing with hydrants.
5. Acted as liaison officer between the Fire Department and the Water Department through verbal and written reports.
6. Conducted water flow tests in conjunction with the Water Department.
7. Spot checked hydrant repairs.
8. Discussed various types of hydrant caps to protect against vandalism, with sales representatives.
9. Assisted in training of department members.
10. Trained industrial fire brigades.
11. Held weekly meetings with Deputy Chief Pierce, discussing training problems.

oOo

TRAINING DIVISION

Audio Visual Annual Report
Battalion Chief Fred Boehringer

Since the inception of the new Audio Visual Department of the Training Division in October 1981, better training methods are developing. With the use of videotape and the firefighters' television sets, they can now begin to view training tapes in the convenience of their own firehouses.

The following training programs were completed under the direct supervision of the Training Division personnel:

Companies reviewing the response of the Video Unit to signal 11's and multiple alarms.

Company drills on ladder raises.

Viewing of the tape "Danger - Explosives".

Viewing of the film "America Burning".

The Video Unit was offered for specialized training to specific groups:

Western Electric -- Gateway II fire drills.

Akron Brass Company -- portable hydrants.

Bayonne Fire Department -- fire prevention.

TRL -- Wet-Gel Blanket.

C.M.D.N. J. -- EMT disaster drills.

The following is a list of projects that have just been completed, or are in the final stages, anticipating their approval so that they may be distributed to our firefighters and to the people of the city:

Training tape -- "Danger - Explosives".

35mm slides in conjunction with Conrail for a railroad safety slide presentation.

35mm slides for a presentation on the "K-12 saw".

35mm slides for presentation on the "Survivair Masks", in conjunction with the personnel from Special Service.

35 mm slides for presentation on "Fire Prevention in the home".

Looking ahead to the upcoming year, we hope to extend the value of the Video Unit to work not only in connection with programs from the Training Center. We wish to extend our availability for use to the Arson Squad, the Bureau of Combustibles and also to the Fire Prevention Division. We would also like to extend our availability to the fire companies, as they begin to put together training programs on 35mm slides. These programs will then be made available to other fire companies to view at their own stations with the "Caramate" slide projectors they will be receiving.

Training Division
Audio Visual Report - (2)

With the advent of the Audio Visual Unit, it has become increasingly important to keep it in operation, because we are able to operate a viable training program with a minimum number of personnel.

With the forecast of economic problems that will occur, we hope to expand our services to allow the Training Center to meet its objectives. The electronic capabilities will enhance our efficiency by keeping a minimum of highly trained personnel on hand.

We wish to extend our thanks to Director John P. Caufield and to Fire Chief Stanley J. Kossup for their support in this new department of the Training Center. Without their support it would have been impossible to achieve our goals.

PLANNING & RESEARCH DIVISION

Annual report submitted by
John J. Valent, Battalion Chief
for 1981

During 1981, the Planning & Research Division provided Staff assistance as directed by the Director and Fire Chief. Assistance was also provided to other agencies when requested.

Areas of activity included, but were not limited to, the following:

CAPITAL BUDGET PREPARATION AND MONITORING

1977 Capital Budget

All projects scheduled were finalized.

1979 Capital Budget

1. Apparatus Replacement

a) Five (5) Maxim Pumpers (1000GPM) scheduled for delivery in February through April were never delivered due to financial problems within Maxim Industries, Inc.

Contracts were rebid and awarded and five (5) Continental (1250GPM) pumpers were delivered and are now in service.

b) Three (3) 100 ft. Seagrave rear-mount aerial ladders were delivered during November and are also currently in service.

2. Construction of Butler Building for relocation of Special Service & Supply to land adjacent to 17-19 Prince Street. The Engineering Department is currently planning this project.

3. Reconstruction of interiors at:

a) 197-199 Summer Ave.

Work nearing completion.

b) 84-86 Clinton Place

Contract has been awarded and work is in progress.

1980 CAPITAL BUDGET REQUEST (AS REVISED BY CAPITAL IMPROVEMENTS COMM.)

1. Apparatus Replacement

a) One (1) 100 ft. aerial ladder truck.

b) Two (2) 1000 GPM pumpers

2. Reconstruction of interiors.

a) 241-243 High Street

b) 1028-1030 Bergen Street

c) 269-271 Park Avenue

d) 69-71 Vesey Street

1981 CAPITAL BUDGET REQUEST (AS REVISED BY CAPITAL IMPROVEMENT COMM.)

1. Fire signal system alarm modernization.

Planning (2)

1981 CAPITAL BUDGET REQUEST: (continued)

- a) Digital coder and display, to replace mechanical registers.
- 2. Fire Training equipment
 - a) Tactics training simulator for training division
- 3. Firefighting equipment
 - a) Relay supply hose

1982 CAPITAL BUDGET REQUEST - SUBMITTED

- 1. Apparatus replacement
 - a) One (1) 100 ft. aerial ladder truck
 - b) Three (3) 1000 GPM pumpers equipped with Tele-Sqrts
- 2. Reconstruction of interiors
 - a) 526-528 Frelinghuysen Avenue
 - b) 469-473 Ferry Street
 - c) 691-701 North 6th Street
- 3. Communications Equipment
 - a) Replace out-dated portable radios
- 4. Fire Headquarters
 - a) Install fire & burglar alarm system

SICK LEAVE AND INJURY REPORTING SYSTEM

Sick and injury leave reports are monitored and coded daily; reports pertaining to sick and injury leaves are presented to the Director and the Fire Chief, weekly.

MONITORING OF ON-DUTY MANPOWER

Daily roll call records are maintained for all companies. Manpower projections are determined for vacation periods and emergencies, along with overtime needs to ensure adequate manpower.

SCHOOLS, CONVENTIONS, SEMINARS

A file and schedule of all upcoming fire service educational events are maintained; arrangements for travel, registration and expenses are handled through this division.

FUEL CONSERVATION (Motor Vehicles)

All motor vehicle fuel consumptions within the Department are monitored and monthly consumption reports are submitted to the Director and the Fire Chief.

AFFIRMATIVE ACTION - EQUAL EMPLOYMENT OPPORTUNITY

This division submits quarterly reports to the Human Rights Commission concerning all Department activities in the following areas: appointments, promotions, retirements, demotions and resignations. Additionally, annual reports of all employment activities and salary listings, from 1 July to 30 June, are forwarded to the Human Rights Commission.

Planning - (3)

HARASSMENTS AND ASSAULTS

Of the 30 incidents reported, three (3) injuries required medical treatment and five (5) resulted in damage to Fire Department apparatus. The other incidents ranged from stolen Fire Department equipment and personal belongings to verbal harassment.

This Division performs many additional functions as directed by the Director and the Fire Chief, and in addition, responds to requests from other inter-departmental and intra-departmental agencies. Reasonable requests from other organizations are acted on according to priority and availability of time.

oOo

COMMUNITY RELATIONS DIVISION AND CIVIL DEFENSE

Annual Report for the year 1981
submitted by
Robert F. Marron, Deputy Chief

During the year 1981, the Fire Department Community Relations Division, (Headquarters 20) in conjunction with other agencies which make up a loosely knit committee, was called on numerous occasions for assistance in providing help for the victims of fire and other disasters. This division maintained contact on a regular basis with the Red Cross, Essex County Welfare, and the Office of Emergency Preparedness, to assist the victims in obtaining the necessities of life. These services are rendered twenty-four hours a day and every day of the year. Headquarters 20 has concentrated on and has continued to build rapport between the Fire Department and the members of the community.

The Christmas Toy Drive of 1981 was of particular interest this year because of the great number of volunteers that partook in the event. The majority who donated their time were Fire Department personnel both active and retired, followed in number by auxiliary firefighters and the concerned associates outside of the department who assisted Headquarters 20, helped to make it a very successful drive. The quantity of toys collected this past year was about equal to 1980 but the quality of the toys was superior. Toys were picked up, sorted, and distributed to various groups and agencies who took care of needy families. Every attempt was made to reach those who were the neediest.

Director John P. Caufield has continued his policy of having the Community Relations Division support and assist charitable agencies in performing their duties to the public. The members of Community Relations assisted in charity drives by helping with logistical matters, assisting with volunteers and providing security. The Community Relations Division participated in helping to set up a picnic for the retarded children at John F. Kennedy school.

The Community Relations Division has continued to speak to individuals and groups wherever and whenever possible about fire safety. Smoke detectors has been a priority item and will continue to be so in 1982. Captain Evelyn took on a special project working with deaf mutes and hearing impaired individuals in the first six months of 1981. By learning sign language, he could give the entire fire message on smoke detectors. Director Caufield has expressed his concern of fire safety for the handicapped and through his efforts a special program for the Audio-Handicapped was kicked off with a whistle and flashlight presented to each student in Bruce Street School. Community Relations Division has one of its members representing the Fire Department on the Mayor's Committee for the Handicapped.

COMMUNITY RELATIONS DIVISION AND CIVIL DEFENSE (2)

The Fire Department Community Relations members participated in Career Days sponsored by schools throughout the City of Newark. These Career Days range from the sixth grade level through the senior high school level.

The International Youth Organization has afforded the Community Relations Division an opportunity to work closely with many people in the Central Ward. James Wallace, Community Relations Specialist, has been very successful in bringing youths from all over the city to compete against each other in a variety of athletic events.

The hydrant problems that persisted every summer were greatly relieved in 1981 because of the prolonged drought of the past two years and because of the the community response to the severe water crisis caused by the vandalized water conduits that feed water to the city. The cooperation of the populace in conserving water was commendable and because of the cooperation, the city was able to meet the crisis head-on and diverted a disaster of serious proportions.

DATA PROCESSING UNIT

Annual Report for 1981
submitted by
Gerrit L. deVries
Data Processing Coordinator

The Data Processing Unit of the Planning and Research Division has completed various computer applications, which include making the following printouts for Department use:

1. List of inspections and updating conditions of hydrants in the city.
2. Overtime reports on weekly basis.
3. Personnel listings and history as needed.
4. Sick reports on all employees.
5. Compensation claims on file.
6. Monthly vacant building reports.
7. Developed printout of issued permits.

Members of the Data Processing Unit have performed all the activities and duties as required by the Director and the Fire Chief of the Fire Department.

oOo

PHOTOGRAPHY DIVISION

Annual Report submitted by
Fireman Lawrence Krieger
for the year 1981

The Annual Report for the year 1981, listing activities of the Photography Division, is herewith respectfully submitted:

Signal 100 - Arson or Suspected	20
Signal 200 - Death at fire	13
Public Relations (includes appointments, promotions, demonstrations, etc.)	45
Special Assignments	97
Negatives made	2,608
Prints made	3,282
Color prints, slides made	164
Assignments	175

oOo

PUBLIC RELATIONS DIVISION

Annual Report for the year 1981
submitted by
Lonnie Tucker

The following report is herewith respectfully submitted outlining activities of the Fire Department's Public Relations Division for the year 1981.

Our division has continued to keep the public informed of various events in fire prevention through the use of radio, television, newspapers, and weekly reports within the communities.

The message of fire prevention and the Fire Director's Smoke Detector plan has been brought to the attention of other agencies who now will join the Fire Department in its efforts to bring fire prevention knowledge to the people.

In the year 1981, the Public Relations Division worked with other city, state and federal agencies which provided assistance to fire victims.

As the liaison man in the Fire Department I responded to fires as requested, and carried out other assignments as needed.

The Public Relations Division is in charge of issuing information in the form of releases to the news media upon request.

I wish to extend my most sincere thanks to the officers and members of the Fire Department for their cooperation throughout the year.

oOo

MEDICAL DIVISION

Annual Report for 1981
submitted by
Morris Halper, M.D.

Acting Fire Department Surgeon

In compliance with the Rules and Regulations of the Fire Department, and the requirements of my duties, I wish to report that upon the retirement of Carl E. Maffeo, M. D., Assistant Fire Surgeon, effective August 1, 1981, I assumed the duties of Acting Fire Surgeon.

During the year of 1981, as a part-time Fire Department Surgeon, my basic availability to the Fire Department was one day per week in addition to any special consultation requested by the Director or the Fire Chief.

Medical records of members on injury or sick leave were routinely examined and an evaluation of their condition and progress was submitted to the Fire Chief.

During the year, a significant number of candidates considered for appointment to the Fire Department have been examined by me. Recommendations and findings concerning the candidates' health were submitted to the Director and to the Fire Chief.

I wish to take this opportunity to thank all the Officers and Members of the Fire Department who have cooperated with me in providing service to members of the Department.

oOo

ANNUAL REPORT
of the Catholic Chaplain
Rev. Horton J. Raught
for the year 1981

The following is a report of my activities as Chaplain
of the Newark Fire Department for the year 1981:

Responded to 110 fires of which 105 were multiple alarms.

Visited the various hospitals in the area to attend
members of the Fire Department who were ill or injured in
the line of duty, and also visited members of their families.

Attended all swearing-in ceremonies of new Fire Department
personnel, as well as all promotion ceremonies.

Attended wakes for deceased members of the Fire Department
or members of their families. Participated in the funeral
services of members of the Department, both active and retired.

Was available for and participated in conferences with
members of the Department or their families.

Conducted the 58th Annual Memorial Service for deceased
members of the Newark Fire Department. This Annual Memorial
Mass and Service was conducted at St. Rose of Lima Church in
Newark.

Attended Fire Prevention demonstrations and all other
activities pertaining to Fire Department affairs, sponsored
by the Fire Department Historical Association and the Bell &
Siren Club.

I wish to express my deep and sincere gratitude to
Director John P. Caufield, Fire Chief Stanley J. Kossup,
and to all the officers and members of the Newark Fire
Department for the friendship, courtesy and cooperation
they have shown me.

oOo

ANNUAL REPORT
of the Protestant Chaplain
Rev. Clarence Bleakney
for the year 1981

The following is the annual report of my activities as Chaplain of the Newark Fire Department, for the year 1981:

I attended swearing-in ceremonies and promotion ceremonies of members.

I kept in touch with all the sick members of the Fire Department, either by writing to them or by telephone.

I made myself available whenever called upon to minister to any of the members of the Department .

I wish to express my thanks to all members of the Fire Department for all kindnesses and courtesies extended to me.

oOo

ANNUAL REPORT
submitted by the Jewish Chaplain
Rabbi Horace L. Zemel
for the year 1981

I wish to report to you that through the year 1981, as Chaplain of the Fire Department, to the best of my ability, I have answered fire calls when summoned, participated in public functions, attended the sick and dying, and in general, lent myself in full capacity as clergyman over all those to whom I minister, in whatever contingency my services were called.

The making of this report gives me, once again, the opportunity of letting you know that I am not unmindful of the many courtesies extended to me in the performance of the duties of my office, for which I am extremely grateful.

May I wish you, and through you, all those in the Department, a year marked by peace in the world, order in our government, health in the home, and success in every worthwhile effort.

oOo

THE BELL AND SIREN CLUB, INC.

Annual Report
For the year 1981

The Bell and Siren Club, organized in 1949, is a non-profit, voluntary group, dependent upon membership dues, social functions, and the contributions of friends to finance its activities and acquire and maintain its equipment.

Membership is limited to 50 active members whose conduct must adhere to the official club Code of Operation. Public officials, and candidates for public office are not eligible for membership.

The Club serves free refreshments of coffee, tea, orange juice, hot soup, etc., from a mobile canteen unit, to firefighters at the scene of the fire.

The equipment it uses is owned by the Club, but it is quartered in Newark fire houses, courtesy of the Mayor and the Newark Fire Department.

During 1981, the Club responded to 142 fire emergencies comprised of:

a total of 124 for Newark

85 - second alarms
25 - third alarms
14 - special calls

13 calls for East Orange
6 - second alarms
2 - third alarms
5 - Special calls

2 calls for South Orange
2 calls for Bloomfield
1 call for Orange

Total time out - 283 3/4 hours
Total generator
time - 157 1/4 hours

Total number of team members responding 366
Total number of others responding 664

Total service record:

Coffee	7,500 cups	Orange drink	8,676 cups
Tea	193 cups	Cookies	542 doz.
Bouillon	223 cups	Soup	235 cups
Water	85 cups	Beef Stew	45 lbs.
Hot Chocolate	692 cups	Donuts	8 doz.
Iced tea	2,603 cups	Cake	8 lbs.
Cigarettes	464	Hamburgers	48
		First Aid	3

We wish to express our appreciation to the elected officials of the City of Newark, Fire Director John P. Caufield, Fire Chief Stanley J. Kossup, and to all the officers and members of the Newark Fire Department, for their help and assistance during the past year. We are especially grateful for the generous support received during our annual Honorary Membership drive.

CIVIL DEFENSE

Annual Report for the year 1981
submitted by
Robert D. Swales, Deputy Director

Following is a report of the activities of the Civil Defense Division for the year 1981:

In 1981, there were 26 new applicants for the Newark Auxiliary Fire Service; this brings the present membership to a total of 292.

The auxiliaries reported to the Fire Houses 1,300 times and spent 7,334 hours on duty; they responded to 2,594 alarms of fire and spent 1,162 hours fighting fires.

There were 260 reports submitted during the year.
No drills or exercises were held for the Auxiliaries.
There were no promotional examinations.

The new identification cards from the State of New Jersey have not yet been received by this office. When they are received, the new cards will be issued to the auxiliaries.

In November, Firefighter Harold J. Ellermann went on terminal leave from the Newark Fire Department. When he retires, he will have had 34 years of service in the Fire Department, and 14 of these years were spent as liaison man in the Civil Defense office.

The Auxiliary Fire Service is looking forward to 1982, and is hoping to have a better year, and will continue to serve the City of Newark.

oOo
